TO STANCERA MEMBERS

I am pleased to provide you with the Popular Annual Financial Report (PAFR) of the Stanislaus County Employees' Retirement Association (StanCERA) for the fiscal year ended June 30, 2017. The PAFR is intended to provide a snapshot and brief discussion of the financial activities of StanCERA for the year. The selected financial information in the PAFR is derived from generally accepted accounting principles and data presented in StanCERA's Comprehensive Annual Financial Report (CAFR) for 2017 and 2016, which contains more detailed information regarding the financial position of StanCERA. The complete CAFR can be located on StanCERA's website: www.stancera.org.

StanCERA's funding objective is to meet long-term benefit obligations by maintaining a well-funded plan status and obtaining optimum investment returns. The most recent actuarial valuation, conducted as of June 30, 2016, reported StanCERA's actuarial funded ratio at 72.8% and fair value funded ratio at 75.0%. The funded ratio is the actuarial assets available to pay the actuarial liabilities. The actuarial valuation is performed annually to determine employer contribution rates taking into account the smoothed value of the assets by spreading all asset gains and losses over a rolling five year period. The next actuarial valuation is in process and determines the funded status as of June 30, 2017. Based upon the new study, the Board of Retirement will set contribution rates for fiscal year 2018 - 2019.

For the fiscal year ended June 30, 2017, StanCERA's total portfolio outperformed its policy benchmark of 11.3% with an overall return of 14.4% due to capital market conditions and active investing. The overall financial position of StanCERA remains strong to meet its obligations to the plan participants and beneficiaries. The StanCERA Board continues to explore options to optimize returns with minimum risk to members and sponsors.

The Fiduciary Net Position increased from \$1.773 billion to \$1.994 billion between 2016 and 2017. Normal contributions (member and employer) increased by \$6.4 million due to an increase in overall participant membership and resulting payroll increases. Benefit payments increased by \$7.3 million over the prior year as more employees moved from active to retired status. Administrative costs to operate the System increased by \$393,074.

StanCERA's independent auditor, Brown Armstrong Accountancy Corporation, has audited the financial statements contained in the CAFR and provided an opinion that the financial statements present fairly, in all material respects, the financial position of StanCERA for the years ended June 30, 2017 and 2016, in accordance with generally accepted accounting principles.

Sincerely,

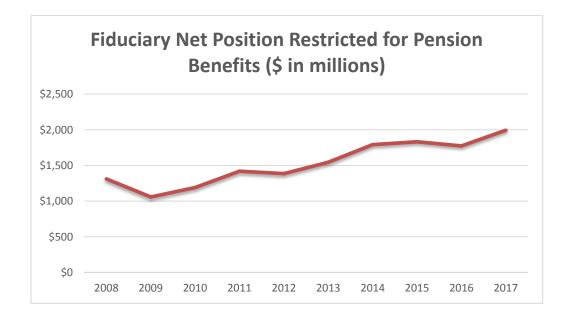

Rick Santos

Executive Director

FIDUCIARY NET POSITION RESTRICTED FOR PENSION BENEFITS

(\$ in millions)

	Fiduciary Net	Increase
Fiscal Year	Position Held	(Decrease) in
Ending June 30	in Trust	Net Position
2017	\$1,994	\$221
2016	1,773	(60)
2015	1,833	42
2014	1,791	246
2013	1,545	159
2012	1,386	(33)
2011	1,419	229
2010	1,190	132
2009	1,058	(253)
2008	1,311	(150)

Total Fiduciary Net Position is the difference between the assets at fair value and the liabilities, representing funds available for future benefit payments to plan participants and their beneficiaries. Increases and decreases in the fiduciary net position over time are indicators of whether the financial health of StanCERA is improving or declining. Management believes the plan remains in strong financial health to meet its obligations to the plan participants and their beneficiaries.

The complete CAFR can be located on StanCERA's website: www.stancera.org.

StanCERA closed with assets exceeding liabilities by \$1.994 billion for fiscal year ended June 30, 2017. The \$290.0 million increase in Fiduciary Net Position is a direct result of the financial market activity. The primary sources to finance benefits StanCERA provides are accumulated through return on investments and through the collection of member and employer contributions.

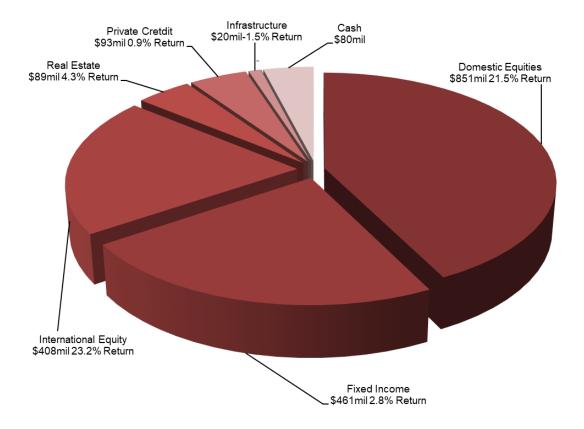

The Plan's investment activity is a function of the underlying marketplace for the period measured and the investment policy's asset allocation. Shown below are StanCERA's investment returns for the last ten years. The investment returns are compared to StanCERA's policy index return, a standard used to evaluate performance, and the Public Defined Benefit Median which is the 50th percentile return for StanCERA's defined benefit plan peers.

INVESTMENTS HELD AT JUNE 30, 2017

TOTAL PORTFOLIO	\$2,001,850,072		100.00%	100.00%

StanCERA's investment consultant, Verus Stategies, Inc., assists the Retirement Board in designing strategic diversification to maintain a steady, long-term positive return with appropriate risk. At the May 2016 Board Meeting, StanCERA's Retirement Board approved a new asset allocation, which is reflected in the above table. There is one new asset class which has not been funded as of June 30, 2017. While the new allocation was selected at the May meeting, it will take time to implement the new strategies and fund these asset classes.

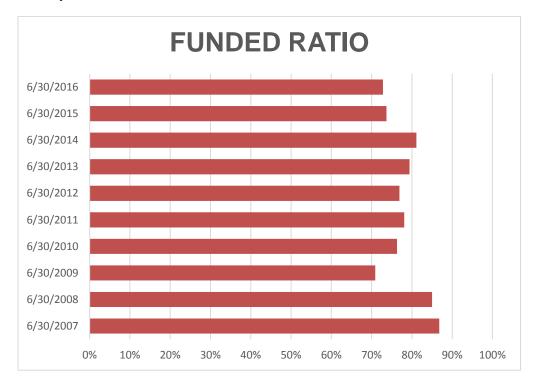

The Total Portfolio is total investments at fair value only. These amounts do not include cash in Stanislaus County Treasury, capital assets, or securities lending cash collateral.

6/30/2007	N/A	N/A	N/A	86.80%

^{*} Actuarial valuation was not performed for fiscal year ended June 30, 2007 Data provided by last actuarial valuation as of June 30, 2016.

As of June 30, 2017, StanCERA's actuarial funded ratio (assets divided by liabilities) decreased from 73.7% to 72.8% due to a decrease in Plan assets of 1.7% for fiscal year ending June 30, 2016. Changes in assumptions based on StanCERA's actuarial experience study from July 1, 2012 through June 30, 2015 were adopted by the StanCERA Board of Retirement in April 2016. The increase in Plan cost due to the changes is phased in over a three year period. This is the

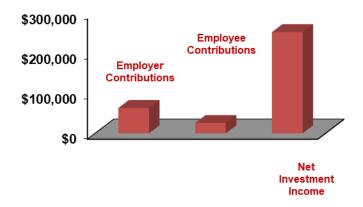

second year of the phase in. The decrease in fiscal year 2009 was due to devaluation of assets during the fiscal year.

FUND REVENUE

(\$ in thousands)

Fiscal Year ending June 30	Employer Contributions	Employee Contributions	Net Investment Income (Loss)
2017	\$63,025	\$25,464	\$252,310
2016	58,196	23,917	(31,322)
2015	53,849	22,960	68,723
2014	46,764	21,868	274,896
2013	39,077	20,286	189,988
2012	27,314	20,525	3,725
2011	26,257	19,197	261,842
2010	21,814	20,746	165,054

2008	22,555	20,689	(121,409)

StanCERA Revenue fiscal year ending June 30, 2017

The primary sources to finance the benefits StanCERA provides are accumulated through return on investments and through the collection of member and employer contributions.

Net investment income is the total interest, dividends and net realized and unrealized gains or losses on all investments less investment fees. For the fiscal year ended June 30, 2017, StanCERA had a \$129.8 million gain on the investments mainly due to market activity.

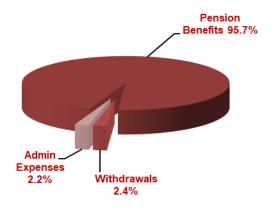

The increase in employer and employee contributions is a direct result of overall participant membership increases and projected payroll increases.

FUND EXPENSES

(\$ in thousands)

Fiscal Year			Administrative
ending June 30	Benefits	Withdrawals	Expense
2017	\$114,291	\$2,553	\$2,645
2016	106,947	1,219	2,315

2009	71,861	2,538	2,080
2008	67,785	2,442	2,044

StanCERA Expenses fiscal year ending June 30, 2017

The primary uses of StanCERA's assets are in payment of benefits to retirees and their beneficiaries, refunds of contributions to terminated employees, and the costs of administering the Plan. Benefit expenses continue to increase as the number of retirement allowances for retirees increases with higher pension benefit amounts. The increase in withdrawals is mainly due to active and retired members who deceased with refundable contributions on account. Administrative costs increased due to the costs to implement a new pension administration system.

HISTORICAL MEMBERSHIP
